Participants will:

- Identify free web-based resources that can be used in the classroom setting.
- Identify free resources available in the state.

Let’s take a look at FREE AT . . .

The Disclaimer:

- The Arizona Department of Education/Exceptional Student Services (ADE/ESS) does not prescribe, endorse, or provide advertising space for textbooks, software, devices, or curriculum materials. The ADE/ESS does not evaluate textbooks, software, devices, or curriculum materials for compliance with meeting the state minimum curriculum standards and does not recommend any specific textbooks, software, devices, or curriculum materials. Each public education agency (PEA) is responsible for selecting curriculum materials that will meet the minimum state curriculum standards. PEAs may also establish their own policies for textbook, software, and curriculum materials' selection and adoption.
- The ESS-Assistive Technology (AT) team does frequently review software, devices, and curriculum support items to determine if they may be used to assist students with disabilities in accessing and benefiting from the general education curriculum. These supports may be considered assistive technology, as defined in the Individuals with Disabilities Education Act (IDEA). The ESS-AT team may procure, demonstrate, and provide training on a wide range of assistive technology items and may compare and contrast the features of these items, but the team is precluded from making any recommendations for one product over another.
